ACCOUNTING COURSES

At York Business Institute

Accountants are the backbone of a company. An accountant's job mainly involves making and assessing the financial records and accounts of a company. By doing so, they're able to help check if the business is doing well.

Expertise in Accounting and Finance is essential for success in business as well as every enterprise in every sector.

Taught by experienced commerce professionals, our Accounting and Finance courses will build on your maths abilities and give you the practical skills and knowledge you need to succeed in the precise and stimulating career.

Accountancy as a good foundation

An accountancy certification is always valuable. You'll learn how to focus on money management, financial recording and reporting, and the best processes to save cash for a business or sole traders. These skills are desired in every industry. For most accountants, it's never hard to find work.

Accounting has good job prospects

Jobs in accounting are always in demand and the skills you learn through studying are transferable and can be applied to many other disciplines.

Take other degrees alongside accounting

It's common for accounting majors to take another degree simultaneously, as there are many courses that are related to accounting and finance. Aside from this, you're also giving yourself an opportunity to broaden your horizons and work in different fields.

International opportunities

One of the great things about accounting is that you can get exposure to a wide array of international opportunities. If you plan on working abroad, you can easily get a job overseas with an accounting degree.

WHAT DO ACCOUNTANTS DO?

Accountants know the rules and follow them, and are good at keeping track of figures. They might make assessments based on information in front of them, but they deal less with the unknown than say, a finance-related position.

The primary role of accountants is to prepare and examine financial records. Accountants ensure the accuracy of a person's or business's financial records, and that bills and taxes are paid properly and on time. A job as an accountant may also involve the following:

- Organise financial records
- Review statements for accuracy
- Make certain that records and statements comply with the law
- Compute taxes owed, prepare tax returns, ensure prompt payment
- Inspect account books and accounting systems to keep up to date
- Suggest ways to reduce overheads and increase revenues and profits
- Provide auditing services

"The YBI accounting programs equipped me with the tools needed to pass the CPA exam and start my career in public accounting.

Scarlett Russia

MEDIAN YEARLY EARNINGS

Staff Accountant	\$58,290
Financial Accountant	\$89,283
Auditor	\$68,962
Tax Accountant	\$70,856
Accounting Manager	\$114,810
Bookkeeper	\$61,055

ACCOUNTING-RELATED DEGREES ARE AN EXCELLENT CHOICE, ESPECIALLY BECAUSE BUSINESS AND FINANCE WILL ALWAYS BE AROUND.

CERTIFICATE IV IN ACCOUNTING AND BOOKKEEPING

This qualification reflects the role of individuals in the accounting and bookkeeping industry, including business activity statement (BAS) agents and contract bookkeepers; and of those employees performing bookkeeping tasks for organisations in a range of industries. It includes preparing and lodging business and instalment activity statements, data processing, monthly reconciliations, preparing budgets, preparing reports on financial performance and the position of the business, preparing end-of-year adjustments, and finalising financial records after year-end. Dealing with the Commissioner of Taxation on behalf of a taxpayer in relation to activity statements and other lodgement matters is also a key component of the role that this qualification reflects.

Individuals in these roles apply theoretical and specialist skills and knowledge to work autonomously, and exercise judgement in completing routine and non-routine activities.
